Question 1	1 / 1 pts

If time is your main current priority for a project, why is it not optimal to add more staff to a project, even if you have flexibility in the budget?

○ More people on the project means more money spent on salary and wages, and costs should always be kept to a minimum

○ Adding more people to the project actually IS the optimal way to decrease time, as long as there is more money available to pay them
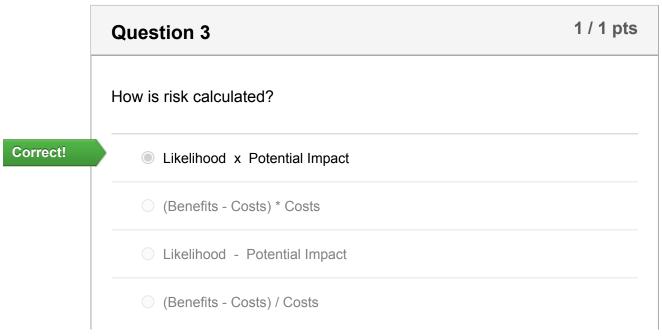

Correct!

◉

More people on the project means more required coordination and
communication

Additional coordination means additional time

Question 2   1 / 1 pts

What is scope creep?

○

A person who won't stop pestering the project manager about the project
scope

Correct!

◉

Adding new requirements to the project after the original scope was
defined

○ A project that is moving slowly because deadlines have been missed

---

Question 3   1 / 1 pts

How is risk calculated?

Correct!

◉ Likelihood x Potential Impact

○ (Benefits - Costs) * Costs

○ Likelihood - Potential Impact

○ (Benefits - Costs) / Costs

Question 4 1 / 1 pts

Did you read or skim the rest of Chapter 2 and the PDF on risk assessment?

Correct!

☑ Yes, I read or skimmed both.

☐ I read or skimmed the risk assessment PDF, but not Chapter 2

☐ No, I did not come prepared to class.

☐ I read or skimmed Chapter 2, but not the risk assessment PDF

Question 5 1 / 1 pts

What is a best practice for motivating people on the project team?

Correct!

◉ Provide awards/recognition

○ Monetary incentives

○ Simplify tasks by removing responsibility for decisions

○ Difficult deadlines

Question 6 1 / 1 pts

Which of the following technologies does Dr Barlow strongly recommend you learn, to help you in both individual work as well as to help you

collaborate more effectively in team work?

    ○ Microsoft SQL Server

    ○ Visible Analyst CASE tool

Correct!

    ◉ Dropbox

Question 7   1 / 1 pts

What is timeboxing?

Correct!

    ◉

    A technique for ensuring the most critical requirements of the software are deployed in a timely manner, with enhancements coming later if needed

    ○

    A technique for creating the project work plan where tasks are grouped into "boxes"

    ○

    Creating deadlines for project staff based on the overlap of project duties and responsibilities

---

Question 8   1 / 1 pts

Which of the following are ways to manage risk?

Correct!

    ◉ Avoidance, Reduction, Transfer, Acceptance

    ○ Denial, Bargaining, Acceptance

○　Technical, Economic, Organizational

Question 9

1 / 1 pts

There are three C's of teamwork. These three are aspects of group work that differentiate it from individual work. Each of which can cause problems if not executed properly. Which of the following is NOT one of the three C's of teamwork?

○　Convergence

○　Communication

Correct! ○　Creativity

○　Conveyance

Question 10

1 / 1 pts

Which of the following is not a key staffing issue discussed in Chapter 2?

○　Motivation (best practices for ensuring success)

○　Staffing plan (assigning staff to tasks)

Correct! ○　Hiring (interviews and job description best practices)

This was not discussed in Ch 2. Hiring and interviewing are generally not the project manager's duties. The project manager usually selects people in the organization that are already employed there (or requests HR or management to hire someone new)
